WEDNESDAY, APR. 18.

W. S. Taylor, of Butler county, is in Washington.

There will be enough cold waves before July 4th to make frost out of the Dewey boom.

There is much sickness in Porto Rico. Medicine is scarce and people are dying rapidly.

The Republicans of Indiana are all torn to pieces, and the Porto Rican tariff law put them still further apart.

When the Philippines hear of the fate of the Porto Ricans they will fight the harder for independence.

Mr. Dewey says he has always been a Democrat. Well, that is all right, but Bryan will be the next President.

Two-thirds of the Greensburg Malitia Company recognizes Mr. Beckham as the legal Governor, and have asked to be discharged.

Congressman Berry will have strong opposition for re-nomination in the Sixth district. There are six or seven possible candidates mentioned.

The County Clerk of Green, Mr. P. F. Marshall, recognizes the State Democratic Administration—sending his check last week for the amount due the State from his office.

In the Alabama primary last Saturday Senator Morgan was re-nominated for United States Senator, carrying nearly every county in the State.

Messrs. Lewis McQuown and Halm Bruce, representing the Democrats and Republicans, respectively, left for Washington last Saturday and will present the gubernatorial case to the Supreme Court this week.

There will be no change in date or place for holding the National Democratic Convention. It will be held at Kansas City July 4, and a new hall will be ready to take the place of the one destroyed by fire.

Speaking of the contest Mr. McQuown said: "We expect the court to hear argument within ten days after the record is filed. The Supreme court adjourns May 15 until about October. The court hears no argument in any case, as I understand it, after May 1. Between May 1 and May 15 the time is devoted to handing down opinions and decisions."

Last Thursday McKinley signed the Porto Rican tariff bill and it is now a law. The first Governor of the island will be Charles H. Allen, at present Assistant Secretary of the Navy. His salary will be \$8,000 a year. The Republicans will never reconcile a large number of their own party to this obnoxious law, which is nothing more than a burden upon a people who were expecting and had reason to expect better treatment from patriotic Americans.

THE PAST—LOOKING AHEAD.

If the Supreme Court decides that it has no jurisdiction over the political muddle in this State, as we verily believe it will, then we will have a gubernatorial race this fall. Already the question is being agitated as to the logical Democratic candidate, the man who can best serve our party's interest and the interest of our State. We trust that good judgment may guide in our party councils, that discreet acts may clothe our party press and that we may all work together as in the good old times of long ago. It was apparent to our mind when the fight was on last year by the three candidates for the nomination, that it was too bitter; that the Democratic press of the State was too rank; that we were all practically demanding that our personal preference must be selected or the party ruined. We all know the result and many of us realize the magnitude of our mistakes.

The News has no apologies to offer for its expressions, for its warm support of Mr. Hardin for the nomination, and when he was defeated, for its best endeavors to assist in the election of Mr. Gosbel.

In the future, as in the past, we will be found true to party and true to convictions, doing all within our power that is fair and right for the best interest of the country and the Democratic party, but we wish to state that we do not intend to surrender that freedom and independence that should characterize honest public expressions that relate to the interest of our friends and our party.

We believe the time is approaching, that an opportunity is near, when our party can free itself from all of the complications that have produced divisions, contentions and unsatisfactory results within its own ranks. In our mind this can be done in the selection of our next candidate for Governor. We advocate a conservative policy, and that is to select a Democrat who has had no entangling alliance with the extremes, who has done his duty as a citizen, as a Democrat, and who who has not embittered any part of his party. Such a nominee would unite our party and give new life and a certain and decisive victory.

There are many able Democrats from whom to select a candidate, but we do not know a man in this State who is better adapted to unite all Democrats, dispel the bitterness of the past, score a great victory next November and make a Governor that would make every true Kentuckian proud, than Hon. Geo. E. Stone, of Casey. He is a Democrat whose hands have never been soiled by degraded political work, whose Democracy has never been questioned, a lawyer of fine ability. He is fifty-two years of age, and would make a Governor that would restore Kentucky to her original proud standing. We feel that a better man could not be found. While he may not be known throughout the State, yet to meet him and hear him on the great question would satisfy the most exacting.

At a meeting of the Ohio Association of Democratic clubs held at Columbus, last week, a resolution was passed, reaffirming the Chicago platform, denouncing imperialism, the Porto Rican tariff, trusts and railroad combinations. It expressed sympathy for the Boers and demanded a solid delegation from Ohio for William J. Bryan.

The political situation in this State has been cleared considerably of late by the decision of the highest Court in our State. The case will now go to the Supreme Court, and its decision will settle the controversy. It is the judgment of some of the ablest constitutional lawyers of the entire country that the United States Court has no jurisdiction in this matter.

A statement comes from Frankfort that the Republicans have repudiated their proposition for an agreement to advance the pending cases of the Democratic State offices against the usurpers. A refusal is probably due to a desire to hold on to the offices as long as they can. The Democrats will push the cases, and there is a possibility that that the Republicans will be indicted for usurpation of office.

The National House of Representatives has passed a bill favoring the election of United States Senators by popular vote. A large majority favored it. The old chair-warmers in the Senate are very apt to kill the bill.

Judge John R. Sampson, of Middlesborough, has been mentioned as a probable candidate for Judge of the Court of Appeals to succeed Chief Justice Hazelrigg. Mr. Sampson is an excellent lawyer, a gentleman of high character, and his Adair county friends would be glad to see him on the bench.

Senator-elect Blackburn sizes up the political outlook thusly: "In my Congressional experience of twenty-five years I have never known a Congress in the control of either party that made as many political blunders. If we can't wipe out the Republicans in November on the blunders made thus far by the fifty-sixth Congress we ought to go out of the business. They have made up the issues of imperialism, militarism and trusts exactly to our liking. Indeed, if they had deliberately started in to make a good job of it for us they could not have done better. Having these facts in mind I feel certain that the Republican managers will hasten the close of the session, and welcome the day when they can breathe easy again so far as Congress is concerned. For this reason I do not believe any effort will be made to force the ship subsidy bill through. The Republicans are not looking for more trouble, unless they have gone crazy."
